

To whom it may concern,

It's my pleasure to provide this letter of recommendation for Yaroslav as he seeks to develop his career within industry. As a captain, I've worked closely with him over the past few months, during his temporary contract from January 2019. He was responsible for menu planning, provisioning and providing with food the crew on board Carinthia VII.

Yaroslav showed excellent knowledge of different types of cuisines and was able to meet all the crew preferences in food. He offered very wide range of nutritional meals during all the time he was with us.

Yaroslav has good communication skills and considerate. He's charismatic and able to be a keen member of the team. He is reliable and hard-working professional.

Due to our policy we cannot offer him permanent contract, which Yaroslav is seeking.

All of us on "Carinthia VII" will be sad to see such a valuable employee go, but our loss is truly your gain.
